Donations Guidelines

Thank you for your donation, you are helping our community by supporting our food bank. The following guidelines will ensure a safe environment for all:

- **All donations must be clean and usable** (no stains, no holes, and washed/fresh) Best trick is to ask yourself… “Would I give this to someone I know and could they use it?”

- **Donations can’t be broken, dangerous, or contaminated.**

- **No personal items** because of hygiene and safety issues (underwear, make up, or open bottles.)

- **Don’t drop off your donations when it’s rainy….We can’t wash or reuse wet items.**

- **Do you have a large / heavy load ? Please call before dropping off so we have volunteers to help - 360.225.9998**

The safety and the health of our customers and volunteers are really important to us. We thank you for your willingness to support our mission, “to improve the quality of life throughout our community.”
